WORK EXPERIENCE

2022 - Present — **Back-end Developer**
iO Sofia, Sofia

I started as a trainee within a team of 6 web and 2 mobile developersDuring the internship, I took part as a Back-end developer in an internal project called PiOple. This HR platform creates and manages employees' profiles, absences, labour agreements and personal details. It has different users and therefore different permissions. For this tool, I used mainly C# and ASP.NET

2019 - 2022 — **Delivery**
Domino's Pizza, Sofia

2018 - 2019 — **Electronic technician**
BMS Production, Sofia

2012 - 2017 — **Electronic technician**
Festo EOOD, Sofia

EDUCATION AND QUALIFICATIONS

2020 - 2022 — **Software engineer**
SoftUni, Sofia

Studied fundamentals of programing, Object-oriented programming and modeling. Advanced programing with C#. Creating databases and data processing with Entity Framework. Web programming with ASP.NET Core

Sep 2007 - Jun 2012 — **Computer Technician**
Sofia Vocational High School of Electronics "John Atanasoff", Sofia

Studied computer systems, microelectronics, electrical engineering, application software, industrial electronics, microprocessor technology
